AIRA
AMERICAN IMMUNIZATION REGISTRY ASSOCIATION

Dear Colleagues and Partners,

On behalf of the American Immunization Registry Association (AIRA) board of directors and staff, welcome to the AIRA 2024 National Meeting! As we welcome you to Florida, we want to share that Orlando, Disney World, and its affiliated entities are dedicated to providing a diverse, welcoming, and safe destination for all. Please join us in creating a warm world of belonging for all meeting attendees.

This year's meeting will kick off with an opening plenary featuring keynote speaker Rachel Montañez. Rachel is a nationally recognized career and burnout expert, having coached organizations across the country on how to take their employees from career fatigue to fulfillment. If anyone has experienced burnout over the last few years, it's us!

Once again, AIRA received an incredible number of abstract submissions for this year's meeting. The interest from the IIS community continues to demonstrate just how valuable we find one another and these opportunities to connect in person. This year's agenda is packed with breakout sessions, industry updates, and multiple networking opportunities. The six breakout sessions include topics like data quality, using IIS to improve health equity, workforce development, AI, and streamlining IIS processes. There truly is something for everyone. Please take a few moments to review the meeting agenda and identify which sessions speak most to you.

This event would not be possible without the dedication of AIRA staff, the contributions of public health staff from across the country, and the financial support of our event sponsors. Thank you to everyone who had a hand in making this gathering possible.

I hope you enjoy the meeting, learn something new, meet a new colleague, and enjoy your time in sunny Orlando!

Heather Roth, MA – she/her/hers
AIRA Board President
Immunization Branch Chief
Colorado Department of Public Health and Environment

Tuesday, May 7

7:00am – 8:00am

Registration/Coffee, Tea, & Light Fare
Location: Grand Foyer & Exhibit Hall (1st floor)

8:00am – 9:15am

Opening Plenary & Keynote
Location: International Ballroom (1st floor)
Moderator: Rebecca Coyle, MSEd, Executive Director, AIRA

AIRA Welcome
Heather Roth, MA, AIRA Board President, Immunization Branch Chief, Colorado Department of Public Health and Environment

Keynote
Rachel Montañez, Holistic Career & Leadership Coach

9:15am – 9:45am

Networking Activity
Location: International Ballroom (1st floor)
Moderator: Alison Chi, MPH, Senior Director of Organizational Development, AIRA

9:45am – 10:30am

Plenary: AIRA Update & Awards
Location: International Ballroom (1st floor)
Rebecca Coyle, MSEd, Executive Director, AIRA
Heather Roth, MA, AIRA Board President, Immunization Branch Chief, Colorado Department of Public Health and Environment

10:30am – 10:45am

Transition Break

10:45am – 11:45am

Plenary: Data Modernization Initiative Panel
Location: International Ballroom (1st floor)
Moderator: Mary Beth Kurilo, MPH, MSW, Senior Director of Health Informatics, AIRA
Micky Tripathi, PhD, MPP, National Coordinator for Health Information Technology, U.S. Department of Health and Human Services *(Virtual)*
Arun Srinivasan, PhD, MS, Deputy Director for Informatics, CDC/DDID/NCIRD
Lynn Gibbs-Scharf, MPH, IDAB Branch Chief, CDC/NCIRD/ISD/IDAB
Vivian Singletary, ISYE, JM, MBA, Executive Director, Public Health Informatics Institute

11:45am – 12:45pm

Lunch
Location: International Foyer (1st floor)

Tuesday, May 7

12:45pm – 2:00pm Session 1 / Breakouts

1A | Data Analysis & Use	1B | Data Quality	1C | Reminder/ Recall	1D | Immunization Forecasting & Evaluation	1E | Data Sharing for Public Health Surveillance

Modernize your IIS with *Casetivity*

***Casetivity*-IIS is a fully-featured, secure, web-based Immunization Information System that enables public health departments to reduce vaccine preventable diseases.**

***Casetivity*-IIS includes features to:**

- Manage end-to-end immunization processes
- Manage patient information
- Automate inventory management of vaccines
- Improve health through proactive clinical decision support
- Enhance emergency and pandemic response capabilities by ensuring healthcare providers are notified early and have the required vaccines
- Report and track vaccinations across the population
- Improve Immunization Program operations by automating key business workflows like patient and shot deduplication
- Improve IT infrastructure through utilization of n-tiered, services-oriented architecture
- Conduct real-time data exchange
- Provide consumer access to vaccination records

IBM

LexisNexis® Risk Solutions and public health agency partnerships improve health outcomes.

From one-time projects to longer-term partnerships, we work with agencies to develop comprehensive data modernization initiatives and deliver custom-designed support to help expand and enrich public health agency programs.

Token-to-Token Matching
Protects and safeguards individual information – allows the agency to fill in additional gaps, such as registry participation, other claims, insights, etc.

Best-of-Breed Golden Records Identity/Household Information
Clear, structured, and indexed data allows agencies to complete accurate and comprehensive assessments.

Contextual Enrichment
Socioeconomic risk drivers and insights; Medical claims insights (diagnosis/treatment/when and where context).

Additional Information
Missing data attributes (DOB/Address/Phone/Email); Missing insights such as relationships, social networks, death/mortality events.

Learn more about how we can help.
