REGISTRY ASSOCIATION

## Changes to AIRA Membership Pricing

AIRA is steadfast in its commitment to support and advocate on behalf of the IIS community. An increase in membership dues will ensure that we can continue our efforts as we collectively manage the challenges that lie ahead. Since the last dues increase in 2018, AIRA has expanded its technical and educational resources, convened the community around new challenges, and amplified the voice of the IIS.

**Effective October 1, 2023, AIRA membership dues will increase by 25%.** The new rates are as follows:

- IIS membership: \$2,495
- Nonprofit membership: \$625
- Individual membership: \$365

## Two-year membership [NEW]

AIRA is offering a **new two-year membership that expires on September 30, 2025, and includes a 5% discount.** *Recent CDC guidance for the pre-payment of certain expenditures may be applicable. Please check the guidance and your local rules for pre-paying membership into future years.*

The two-year membership rates are as follows:

- IIS membership: \$4,741
- Nonprofit membership: \$1,188
- Individual membership: \$694

## Hardship clause

AIRA's mission is to ensure that all IIS are fully supported and represented. If your jurisdiction is unable to pay in full for membership at this time, please email Jo Turcotte so we can further discuss other options and make appropriate arrangements.

## Supporting members

To better define the role of our current supporting members, as of October 1, 2023, supporting members will be known as corporate partners. An updated list of prices and benefits will be communicated to all current partners in the coming weeks.

## We value you!

Your involvement is essential to AIRA's success. We appreciate your efforts and contributions as, together, we strive to ensure that the IIS community is fully supported and represented.
