Position Announcement

Medical Director, Tennessee Department of Health Immunization Program

The Medical Director of the Tennessee Department of Health (TDH) Immunization Program (TIP) will be responsible for overseeing the statewide immunization and vaccine-preventable diseases program. Responsibilities will include oversight of a staff of approximately 30 people. Program activities include administration of the state's Vaccines For Children (VFC) program and the statewide immunization registry; surveillance, investigation and control of vaccine preventable diseases (VPD); oversight of federal grants; medical consultation with statewide immunization program staff, partner agencies and stakeholders regarding VPDs; representing TDH in state, federal and public program activities; and working closely with other TDH divisions and programs regarding VPDs.

Candidates for this position must be a physician eligible for licensure in Tennessee. Several years of experience in immunization program activities, government service, public health, and program management are desirable. The position is based in Nashville, TN.
